

FAHEEM SHAN K A

Software Developer · Python Backend Developer

Malappuram, Kerala, India | faheemka246@gmail.com | +91-7592910065 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

MCA graduate with hands-on experience in Python, Django, FastAPI and Django REST Framework (DRF) and React.js, building backend services, authentication systems, database-driven applications, and REST API integrations. Experienced with PostgreSQL, Celery, Redis, Docker, and AWS EC2 through internship experience and personal projects. Seeking an entry-level Software Developer role to build reliable and scalable web applications.

TECHNICAL SKILLS

Backend: Python, Django, Django REST Framework (DRF), FastAPI, RESTful APIs, JWT Authentication, ORM, MVT Architecture, Celery, Redis

Frontend: React.js, Redux, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Axios

Database: PostgreSQL, MySQL, MongoDB

AI / Data: LLM Integration (Gemini, Groq), RAG Pipelines, ChromaDB, Embeddings, ETL Pipelines, Beautiful Soup

Tools: Git, GitHub, Docker, Postman, VS Code

Methodologies: Agile, Scrum, SDLC

WORK EXPERIENCE

Python Full Stack Developer Intern

Bridgeon Solutions LLP

Aug 2025 – Present

Malappuram, Kerala

- Improved frontend performance by developing reusable React components, enhancing user experience.
- Implemented dynamic user interfaces using React state and props for interactive user experiences.
- Integrated frontend with backend services using RESTful APIs and Django REST Framework (DRF).
- Developed backend logic and implemented CRUD operations using Python, Django, and Django ORM.
- Optimized database queries and storage strategies, improving application performance and efficiency.
- Deployed and managed applications using Docker and AWS EC2.

PROJECTS

FinAI | *Finance Management System* | [GitHub](#)

- Engineered a finance management platform for individual users and companies to manage budgets, expenses, transactions, and financial records.
- Built backend services using Django, Django REST Framework (DRF), and PostgreSQL with role-based access control and secure company-wise data isolation.
- Implemented background task processing using Celery and Redis for email notifications and scheduled financial summaries, with deployment through Docker, AWS EC2, and Nginx.

VOXINTEL | *AI-Powered Marketing Intelligence Platform* | [GitHub](#)

- Built an AI-powered marketing intelligence platform for competitor and market analysis.
- Implemented web crawling and ETL workflows to collect, clean, and process competitor website and advertising data.
- Used AWS S3 for storing collected data and supporting scalable data processing workflows.
- Integrated LLM-based analysis to generate insights from competitor, website, and marketing data.

Bookstore | *E-commerce Web Application* | [GitHub](#)

- Designed a responsive React.js interface for browsing, searching, and ordering books.
- Created an admin dashboard to manage inventory, including adding and updating book details.
- Integrated REST APIs using Axios for data retrieval, updates, and CRUD operations.

EDUCATION

Master of Computer Applications (MCA)

MES Engineering College, Kuttippuram (KTU)

2023 – 2025

Kerala, India

ACHIEVEMENTS & CERTIFICATIONS

NPTEL Silver Certificate in Cloud Computing — IIT Kanpur (2023)

ASAP Kerala Training Certificate — ASAP Kerala (2023)
